

(Copy)

Peardale R. 1 July 2^d 1889,

Mr John C. Bundy,

Dear Sir.

I presume you received
my ~~copy of~~ letter of 27th Ult.

I think it is probable I have
~~not~~ that in the article I sent, to you
that you are about to publish, I did
give a plan in your journal, I did
not state with sufficient clearness,
and direct

the ~~long~~ long line that ~~was~~ upon
which the ~~well~~ water finds head but
descends down, ^{subterranean} & pointed directly to the ground,

was the line of the stream of water
~~the beam of the wood~~ ^{the} ~~at~~ ^{light}

~~that~~ ~~the~~ ~~beam~~ ~~of~~ ~~the~~ ~~wood~~ ~~at~~ ~~the~~ ~~well~~ ~~at~~
that the beam of the wood ^{then indicated} the well,
~~on which~~ ~~a~~ ~~through~~ ~~which~~ ~~a~~ ~~stream~~ ~~of~~ ~~water~~

was ~~found~~, several hundred yards, to the point

at which the stream was revealed to the
eye, while ^{was} ~~blasting~~ ^{the} ~~the~~ ~~surface~~ ~~of~~ ~~the~~ ~~ledge~~ ~~of~~
Rock, at the point where the "Nar. Pin
Railway" ~~crosses~~ ~~the~~ ~~same~~ ~~line~~.

facts

If I have not ~~not~~ stated them ~~correctly~~ ^{in the article I sent to you,}
with sufficient clearness, please ~~add~~
~~the few words~~ ^{see} add what
you may deem proper further perhaps
and oblige yours truly
J. P. Hara

On page 4, of your journal of July 2^d
1889, an remarkable concerning the
great City of Chicago, with its
800,000 people,

I have often visited your City,
and the first time I did so, it contained
only about a dozen houses, and with one
exception, then were men "Shanties",
and most of them, deserted. J. P. H.
